Introduction

Atmanirbhar means 'self-reliant'. This was Prime Minister Narendra Modi's response to the economic crisis after lockdown.

He called for a self-reliant India, on May 12, 2020, in his address to the nation. Prime Minister Narendra Modi announced in his economic package of Rs 20 trillion with more focus on local manufacturers and service providers. In at least the medium run, the steps intended to strengthen the economy by improving the trade deficit and the exchequer balance of the country.

Hon'ble PM understood the need of the hour, which was to use self-reliance as a resurgence for the Indian economy. 12 sectors were

identified by the government to give more focus to become a global supplier. Auto components, textiles, industrial machinery and furniture, food processing, organic farming are a few sectors among these.

The idea behind self-reliance is to ensure that India emerges as an important center of the modern multinational supply chains.

Hence deliberation on the above subject is required so that the policy makers can take remedial measures so that the output of this schemes goes to the poor and deprived sections of our society and make India a self reliant in all sectors and the vision of our Prime minister concept of "Vocal for Local" is fulfilled.
